Subject: Milling Existing Asphalt and Paving
Bank Street (from Martine Avenue to Fisher Avenue)

Dear Owner or Resident:

The Department of Public Works (DPW) has awarded a contract to PCI Industries Corp., for the above captioned work.

Preparation work consisting of but not limited to minor roadway milling and casting adjustments will begin on or about **October 19th** (weather permitting).

Once the preparation work is completed a new final top course of asphaltic concrete pavement will be placed. The paving shall be performed approximately between the hours of 7:00 a.m. and 4:30 p.m. with the street remaining open to vehicular traffic; however on-street parking will be restricted. Travel lanes will be managed utilizing appropriate signage, flag personnel and police officers. Access for residents, deliveries, refuse & recycling, buses, and emergency vehicles will still be provided.

City DPW personnel will be on site to ensure the satisfactory performance of the contract. Although we will make every effort to expedite this work, please bear in mind that this is weather sensitive, and your patience and cooperation is essential and will be most appreciated.

If you have any questions please do not hesitate to call Chris D. Robeson, Chief Construction Coordinator at (914) 422-1215.

Thank you for your patience and cooperation.

Yours truly,

Richard G. Hope
Commissioner of Public Works
